Hello GCR. What better way to celebrate fall than enjoying one of the majestic highlights of Northern California, the Sierras. Our October 11th ride destination will take us to the cute little town of Genoa, the oldest settlement in Nevada. This beautiful 113 mile ride is approximately 2 hours and 40 min of saddle time will start in El Dorado Hills, take us down Latrobe through Fiddletown and over some fun scenic sweeps on highway 88 (one of my favorite roads). While this route is designed for most skill levels it is rated as a 4 (on a scale of 1 to 5) because of the high speeds and sweeps on Highway 88. Lunch will be at a cute little restaurant called the Genoa Station Bar & Grille. The food is wonderful and in addition to traditional favorites they also offer vegetarian and gluten free options (and yes credit cards are accepted too). As a bonus, Camille will be meeting us for lunch since we are in her backyard.

Our rider meeting is at 8:30 and kickstand up at 9:00 am. The early start time will allow those that want to do some sight-seeing in Genoa or take long leisurely rides home a bit more time.

Thank you,
Tammy
